EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Cathy Moore on February 16, 2007.

2. The application has been amended as follows:

Claim 17 is cancelled.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of reference is taught by Morgan (US 3,859,157) in view of Benson et al. (US 4,913,760). Morgan teaches making a laminate by applying a release coating onto a paper backing. The composite is dried and then exposed to humid air to rehumidify the paper and stabilize it at about 50 percent relative humidity (column 2, line 65 – column 3, line 12). A sheet is applied onto the humidified paper backing, and the paper backing is removed thereafter (column 3, lines 26-49). Benson et al. additionally teach winding up and storing a coated permanent carrier, where a temporary carrier, that was used to transfer the coating to the permanent carrier, is recycled thereafter (column 6, lines 33-34; column 8, lines 7-11).

However, there is no teaching found of applying a sheet onto the humidity adjusted composite by feeding the composite, comprising the coating and paper backing, to a cooling station, where the sheet comes from a storage roll and is applied to the coating.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
